

Build your company brand while recruiting top engineering and technology talent!

Presented by:

**McMaster University -
Biomedical, Bioengineering, and Biotechnology Industry Night
Thursday, January 16th, 2020**

Where: 1280 Main St W., McMaster University Gerald Hatch Centre, 2nd Floor
5:00pm - 8:15pm (complimentary dinner will be provided before the event)

The McMaster bio-engineering students have worked in organizations such as Baylis Medical, Sanofi, Amgen and Thermo Fisher and we are looking for organizations who would like to join in considering this talent for their upcoming roles.

We are currently looking for cutting-edge companies in industries relevant to the life sciences, medical devices and biotechnology to participate in this event.

The Industry Night will provide you the opportunity to:

- promote your organization on campus
- network with students who are interested in your organization
- and discuss any opportunities for co-op/full-time employment beginning May 2020.

Attendance:

Students in various biomedical engineering disciplines and the health sciences will be primarily attending the event including:

- Biomedical Engineering (Specializations in Chemical, Mechanical, Software, Engineering Physics, Materials, Electrical, Software, Civil, Mechatronics)
- Biotechnology
- Health Sciences

If you are interested in getting more information about this event or attending, you can contact Nayelli Perez (Career Development & Relationship Manager, Engineering Co-op & Career Services) at perezn3@mcmaster.ca
