The 2022 Forum

LSO's Annual Ideas to Action Life Sciences Forum (formerly LSO Policy Forum), will look at creating tangible actions that we can take to government and key stakeholders to help create a robust life sciences sector. Entering its 13th year, the forum will bring together key stakeholders from across the industry to strategize and collaborate on how we can empower the life sciences sector.

Join us on October 5th for a virtual pre-forum talk on "Creating a robust Life Sciences Strategy: Best Practice sharing between Denmark, Ontario and Quebec", [more information can be found here](#).

On November 3rd, we will do a deeper dive on how talent, data and infrastructure can play key roles in the implementation of successful federal and provincial life sciences strategies. What actions are needed to train and keep an inclusive talent field in Canada in order for the sector to grow? Data has the opportunity to positively impact research, the health systems, patients, government and industry but how do we build strong data partnerships between all stakeholders. How do we ensure our infrastructure investments are sufficient to support the growing research, biomanufacturing, clinical trials and coordinated data systems? We'll end the day hearing from leading public policy strategists on how to action the ideas from the forum to ensure meaningful implementation.

Why you should participate:

LSO's annual Ideas to Actions Life Sciences Forum presents a premier opportunity to showcase your brand and connect with 150 + leaders in our sector, including senior public officials, private sector C-level executives, innovators, entrepreneurs, and members of academia. Following the forum, LSO will create a summary and list of recommendations which is circulated to government and then distributed widely within our sector, guiding our advocacy, and government relations efforts.

Registration Details

Member: \$225.00 + HST

Not yet a Member: \$300.00 + HST

Government / Student Member: \$100 + HST

Virtual Attendee: \$100 + HST

About Life Sciences Ontario (LSO)

- Founded in 1989
- Member-driven not-for-profit organization
- LSO represents and promotes the province's vibrant and diverse life sciences sector
- Collaborates with governments, academia, industry and other life science organizations in Ontario and across Canada to promote and encourage commercial success throughout the sector

We value

- Collaboration
- An aligned, unified voice
- Science and evidence-based decisions
- Inclusivity, consultation, and consensus
- The equal social and economic benefits of life sciences

Our strengths

- Advocacy
- Economic development
- Networking and partnerships
- Promoting our sector
- Mentorship and professional development

Why Support the Annual Policy Forum

Money raised during the LSO Annual Policy Forum helps to support our initiatives:

Thought Leadership

- Research, Benchmarking studies, Reports

Public Policy Engagement

- White papers
- Consultations
- Government Relations

Community Leadership

- Large network of partners
- Facilitating collaborations
- High-quality networking events
- One-stop shop for latest sector news and events

Education / Mentorship

- Educational events
- Mentorship program
- Marketing and promotion of the sector locally, nationally and internationally

About Life Sciences

The Life Sciences Sector

The life sciences sector is broad and encompasses research, development and manufacturing operations as well as the development of diagnostics, biopharmaceuticals, pharmaceuticals and medical devices. Health research institutions and research networks play an integral role in research and knowledge translation in the life sciences sector.

As the demand for pharmaceuticals, medical technology and other healthcare products continues to rise, global prescription drug and medical technology sales are expected to grow. Emerging technologies, including AI, cognitive technologies, automation, and computer power, are driving significant advancements within the life sciences sector that can enhance healthcare across the globe.

The Life Sciences Sector at a Glance

	Drugs and pharmaceuticals	Featuring companies engaged in pharmaceutical and medicine manufacturing; and pharmaceuticals and pharmacy supplies merchant wholesalers	\$36.4B Revenue 684 Establishments 30,371 Jobs
	Research, testing and medical laboratories	Featuring companies engaged in providing physical, chemical and other analytical testing services; and medical and diagnostic laboratories	\$961M Revenue 2,592 Establishments 24,844 Jobs
	E-health and artificial intelligence	Features companies engaged in providing access to complete, up-to-date, and accurate digital patient records by authorized health professionals; and collection of multiple technologies enabling machines to sense, comprehend, act and learn so they can perform administrative and clinical healthcare functions	
	Agricultural feedstock and chemicals	Featuring companies in pesticide and agricultural chemicals manufacturing, oilseed processing and other basic organic chemical manufacturing	\$7.9B Revenue 526 Establishments 8,255 Jobs
	Medical device and equipment	Featuring companies engaged in medical equipment and supplies manufacturing, and related wholesalers	\$11.6B Revenue 2,338 Establishments 26,372 Jobs
	Medical cannabis	Featuring companies engaged in the production and sale of cannabis for medical purposes	\$122M Revenue 69 Establishments
