

LSO's Annual Ideas to Action Life Sciences Forum (formerly LSO Policy Forum), will look at creating tangible actions that we can take to government and key stakeholders to help create a robust life sciences sector. Entering its 13th year, the forum will bring together key stakeholders from across the industry to strategize and collaborate on how we can empower the life sciences sector.

REGISTER NOW!

On November 3rd, we will do a deeper dive into how talent, data, and infrastructure can play key roles in the implementation of successful federal and provincial life sciences strategies. What actions are needed to train and keep an inclusive talent field in Canada in order for the sector to grow? Data has the opportunity to positively impact research, the health systems, patients, government, and industry but how do we build strong data partnerships between all stakeholders? How do we ensure our infrastructure investments are sufficient to support the growing research, biomanufacturing, clinical trials, and coordinated data systems? We'll end the day hearing from leading public policy strategists on how to action the ideas from the forum to ensure meaningful implementation.

	Thursday, November 3rd
8:00- 8:30 am	Registration & Networking Breakfast
8:30-	Welcome
8:40am	Jason Field, President & CEO, Life Sciences Ontario
2.42	Opening Remarks
8:40- 9:00am	Hon. Vic Fedeli (Nipissing), Minister of Economic Development, Job Creation and Trade, Progressive
9.00am	Conservative Party of Ontario
9:00-	Keynote – Bringing Strategy Home
	Brigitte Nolet, President & CEO of Roche Canada Pharma will provide her Sponsored by:
	insights and key learnings from her international experience. What can Canada learn from other international jurisdictions? How can we be competitive in the
9:30am	post-pandemic environment?
	Brigitte Nolet, President & CEO, Roche Canada Pharma
	Coordinating Life Sciences Strategies Panel
	This panel session will explore the interplay between federal and provincial life sciences strategies. How are these strategies co- Sponsored by:
	provincial life sciences strategies. How are these strategies to
	dependent and will they be mutually reinforcing? How do we define areas of responsibility to ensure coordination within
	government and across different levels of government? What steps
	need to be implemented to ensure these strategies are meeting the
9:30-	needs of the life sciences sector?
10:45am	
	Moderator: Brigitte Nolet, President & CEO, Roche Canada Pharma
	 Jennifer Chan, Vice-President, Policy and Government Affairs, Merck Canada Inc Lesia Babiak, Head, Canada Government Affairs & Policy, Johnson & Johnson
	Darryl Patterson, Director General, Innovation, Science and Economic Development Canada - Life
	Sciences and Biomanufacturing branch
	Khawar Nasim, Vice President, Business Development, Invest Ontario
10:45-	Morning Networking Break Sponsored by:
11:05am	ADVOCACY
	Closing the Talent Gap Panel
	BioTalent Canada predicts more than 65,000 new life sciences workers will be needed in Canada by 2029. In order to meet this demand, Canada's life Sponsored by:
	sciences sector must take steps to improve Inclusion, Diversity, Equity and
	Accessibility (IDEA). We need to train our young talent with the skills needed
	for the life sciences jobs of tomorrow and ensure that they have clear career BioTalent Canada
	development pathways to allow them to grow and succeed in the Canadian Building skills for Canada's bio-economy
11:05 -	bioeconomy. This panel will explore the actions needed to bridge the talent
12:00 pm	gap.
	Moderator: Reg Joseph, Chair, BioTalent Canada; CEO, Health Cities
	Christine Allen, Vice-President, Ecosystem Development, adMare Bioinnovations
	Tomas Baldassarre, Specialist Educational Development and Digital Learning, University of Ottawa
	Wendy Cukier, Founder & Academic Director; Professor, Entrepreneurship & Strategy, Toronto
	Metropolitan University
	Farah Qaiser, Member, Canada Chief Science Advisor's Youth Council

	October 5th - 9am
	Pre-Life Sciences Forum Teaser Event - Virtual
	Creating a robust life science strategy: Best practice sharing between Denmark, Ontario and Quebec
	Christina Kibsgaard, Chief special adviser, Life Science team, Ministry of Industry, Business and Financial Affairs of Denmark
	Frank Béraud, Président & CEO, Montréal InVivo
	Andrew Guy, Director, Ministry of Economic Development, Job Creation and Trade
9:00 am	On behalf of the Royal Danish Embassy, the Danish Life Sciences Forum and Life Sciences Ontario, it is our pleasure to invite you to attend a panel discussion with a focus on best practices for developing a strong life science strategy. Denmark provides a rich source of insights to support the growth of an expanded life science industry in Ontario and Quebec. Life science is one of the largest sectors in the Danish economy, comprising almost 1,500 companies, with the value of the industry nearly doubling in the past decade. Last year, Denmark unveiled a 2021-23 strategy for the Danish life science industry, composed of 38 new initiatives across seven domains. Developed together with industry partners, the initiatives aim to improve conditions for R&D, expand the use of health data, secure a highly skilled workforce and deliver on international partnerships and market access for the benefit of patients, healthcare system sustainability and the economy.
	Moderated by Jason Field, President and CEO of Life Sciences Ontario, with representatives from Denmark, Ontario and Quebec, this panel is set up for a rich dialogue to ensure ongoing innovation in the life sciences sector.
	Key themes will include economic pillars of the strategy, the resulting benefits to life sciences and the healthcare system, and the approach to public private partnerships, exploring benefits, challenges and lessons learned.
