• Marketing and promotion of the sector locally, nationally and internationally
Sanofi Biogenius Canada (SBC) is an opportunity for students to gain real-life research experience, while pursuing groundbreaking projects under the mentorship of experts in professional laboratories. Students will gain access to a network that extends far beyond the classroom, opening doors to your future success.

INNOVATION IN LIFE SCIENCES
SBC is empowering Canadian youth to explore ideas that can help change lives. No ordinary science fair, our participants tackle university-level research topics – from cancer and Alzheimer’s disease, to agriculture and the environment. Projects have the potential to be patented and commercialized, and students have the opportunity to build experience as scientists and innovators, all before graduating high school.

For many participants, SBC has influenced future careers, in some cases paving the way for studies in top-tier universities and exciting internships in the biotech industry.

HISTORY
Sanofi Biogenius Canada began in the Toronto area in 1992, aimed at raising awareness among students, educators and the public about the emerging field of biotechnology. Quickly gaining traction over the next 25 years, SBC now boasts a nationwide presence with an impressive track record of success. Each year, SBC hold eight regional competitions in March and April at prestigious university and research installations across Canada, where students present their findings to panels of judges from academia and industry. Winners at each regional competition are invited to the National Finals in Toronto in June each year where they vie for the title of Canadian SBC Champion. The national SBC Champion then moves on to represent Canada at the International BioGENEius Challenge, held at the prestigious BIO International Convention in June, the largest biotechnology event in the world.

84% of participants say SBC helped guide their field of study or career path
74% of participants have gone on to biotechnology-related studies or professions
6,000+ students have taken part across Canada

Life Sciences Ontario has contributed over $160,000 towards the Sanofi Biogenius Canada since 2005.
